SE8000 Series Room Controllers

Easy to use and cost-efficient to install

The SE8000 Series is a sophisticated addition to the Schneider Electric™ product portfolio of room controllers.

With rich, customisable features, the SE8000 Series enables significant energy savings with accurate temperature control in any space.

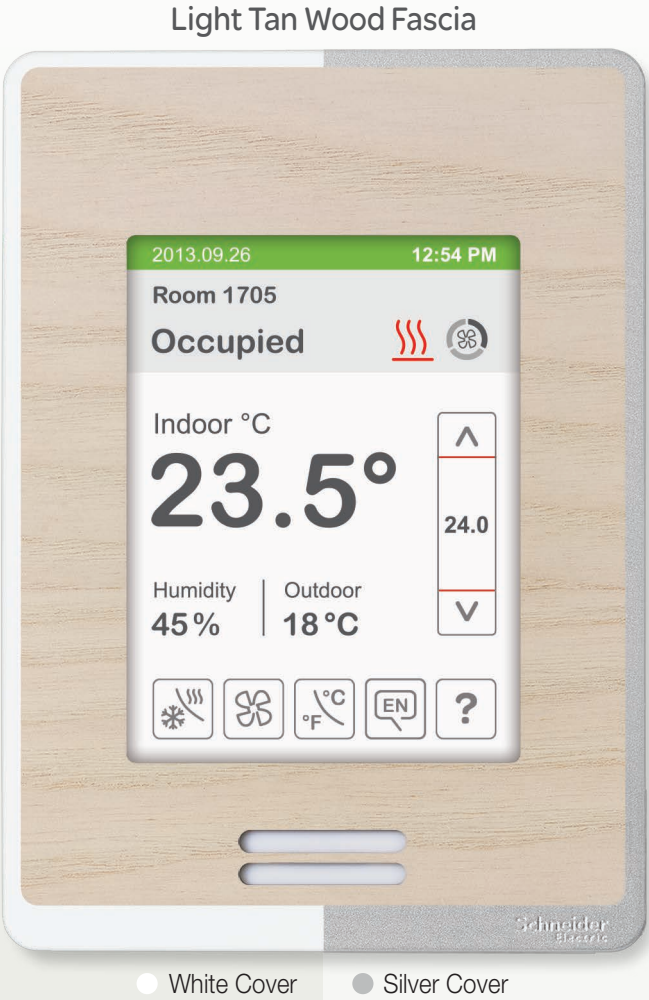

The timeless beauty of wood

Introduce a natural ambiance to any décor by bringing outdoor elements into your space.

By mixing the fascia colour palettes with our customisable screen colour schemes, you can achieve the perfect variation to create your own personal statement.

Wireless communication and scalability allows for integration into larger building management systems without any additional wiring or conduit work.

The contemporary style of slate and aluminium

For those who enjoy the rustic feel of elements such as slate, or the modern accent of brushed aluminium, our range of finish options links the SE8000 Series to the architectural elements of your building with ease.

As always our reliable control functions allow you to achieve both energy saving and comfort without compromise.
